SUMMARY

Computer Applications undergraduate with hands-on experience in developing interactive and scalable web solutions using modern JavaScript frameworks. Proficient in creating responsive user interfaces, implementing RESTful APIs, and working with full-stack technologies in the MERN stack. Strong understanding of front-end performance optimization, component-based architecture, and database integration.

SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), ReactJS, Three.js
- **Animation & UI:** GSAP, Framer Motion, Locomotive JS, Swiper JS
- **Backend:** Node.js, Express.js, RESTful APIs
- **Database:** MongoDB, SQL
- **Tools:** Git, GitHub, VS Code, Postman
- **Core Concepts:** OOP, DBMS, Data Structures, Asynchronous Programming

PROJECTS

DogStudio Inspired Interactive Website *Feb 2026*

- Developed an interactive 3D web application using ReactJS and Three.js.
- Integrated animations using GSAP and Framer Motion for smooth interaction.
- Optimized responsiveness across devices for consistent performance.

Gen AI Full-Stack Project *March–April 2026*

- Created a full-stack web application using ReactJS, Node.js, and Express.js that generates interview reports based on resumes, job descriptions, and self-descriptions.
- Implemented REST APIs and integrated Generative AI to process user inputs and generate structured feedback.
- Designed a responsive UI and ensured smooth communication between frontend and backend.

Online Banking System (Backend-based) *March 2026*

- Developed RESTful APIs using Node.js, Express.js, and MongoDB for banking operations.
- Implemented authentication, account management, and fund transfer features.
- Validated 10+ API endpoints using Postman to ensure reliable request-response handling.

Kanban Board Application *Nov 2025*

- Built a task management system using HTML, CSS, and JavaScript with drag-and-drop functionality.
- Enabled dynamic task updates across multiple workflow stages using DOM manipulation.
- Created an intuitive UI to enhance task organization and usability.

EDUCATION

Bachelor of Computer Applications (BCA) — IITM, Delhi 2023–2026
Senior Secondary (XII) — 85% 2023
Secondary (X) — 82% 2021

ACHIEVEMENTS

Fundamentals of Java Full-Stack Program – NASSCOM (FutureSkills Prime) November 03, 2025

- Certified in Java Full-Stack Development through NASSCOM (FutureSkills Prime), gaining hands-on exposure to backend systems, RESTful APIs, and database integration.
